PRODUCT/SERVICE TYPE	PRODUCT NAME	PROVIDER/MANUFACTURER	COMMENTS
ADHESIVE REMOVER	AllKare Adhesive Remover Wipes	ConvaTec	Use when tape is accidentally applied.
	Uni-Solve Adhesive Remover	Smith & Nephew	Use when tape is accidentally applied.
BATH TIME	White Hot Infant Bath Cradle	Munchkin	
	Safer Bather Infant Bath Pad	Leachco	
	The Bath and Bumper	Leachco	
	The Tuckie Duckie	Leachco	
BOTTLES	SpecialNeeds Feeder		A slit in the tip of the nipple opens when baby bites on it. Use the guides on the side of the nipple for slow, medium, and fast flow. Parent can also help baby suck by squeezing on the nipple. One-way valve prevents build up of negative pressure.
	Pigeon Feeder		Nipple has Y-cut tip, and the plastic one-way valve prevents negative pressure. One side of the nipple is softer than the other, so it works when baby presses its tongue against it. Aim the notch in the nipple at baby's nose for correct feeding.
DIAPERS: DISPOSABLE	Walmart Brand White Cloud		Product is available at Walmart stores.
	Huggies Supremes		Huggies are available in stores.
	Huggies Ultratrims		Huggies are available in stores.
	Pampers Swaddlers		Pampers are available in stores.
DIAPERS: CLOTH	Happy Heiny's Pocket diapers	Happy Heiny's	
	Fuzy Bunz	Nurtured Family

FOOT CARE	Blister Shield	TwoToms LLC	This powder is used in socks to reduce friction. It is not for use on open wounds. (Product used and recommended by EB families)
	Burrows Solution, Drysol or Arrid XX Dry Antiperspirant		These and other aluminum-containing products were reported to be helpful. (Product used and recommended by EB families)
	Domeboro Soaks		This aluminum acetate product is reported by many to dry up blisters, “put out the fire” and speed up the healing process. (Product used and recommended by EB families)
OINTMENTS/ TOPICALS	Emu Oil		Emu oil reportedly reduces inflammation, decreases scarring, facilitates healing and diminishes pain. (Product used and recommended by EB families)
	Manuka Honey		Honey is an ancient remedy for the treatment of infected wounds. It has been rediscovered in an age when conventional medicine is being challenged by the development of resistant bacteria. There have been many articles published which detail the antimicrobial action of honey against bacteria and fungi as well its wound healing properties. Medical grade honey must be used.
PROTECTIVE GARMENTS	Babylegs		Similar to leg warmers, these can be used on the arms and legs to hold bandages in place. (Product used and recommended by EB families)
	Gloves	Barton Carey Perrysburg, Ohio 43552 800-421-0444	These are made-to-order gloves. (Product used and recommended by EB families)
	Tubifast Garments	Mölnlycke	These are not considered dressings by most insurance companies and are not usually covered.
